Customers are billed monthly for utility services and bills are printed and mailed the last week of each month. The entire bill must be paid in full by the 20<sup>th</sup> of each month to avoid late fees. Late fees are assessed at the rate of 10% of the amount past due. Any billed amount not paid by the cutoff date printed on the customer bill causes the account to be subject to service disconnection for non-payment. If your account goes into cutoff, the account will be assessed a \$60.00 cutoff fee, a \$30.00 turn on fee, and payment of past and current due balances.
