

Dear Valued Customer,

Over the years the City of Flowery Branch residents have benefited from a reduced sanitation and recycling rate negotiated by the City of Flowery Branch despite raising costs in all aspects of the industry.

With proposed higher rates, The City of Flowery Branch recently issued an RFP for the sanitation and recycling service contract. Red Oak was again awarded the contract.

Despite this competitive bid, rising labor costs, insurance, disposal, recycling processing, and fuel rates have caused modifications in service levels and new rates.

Please direct all questions in regards to sanitation to Red Oak Sanitation.

Thank you,

Tonya Parrish – Flowery Branch City Manager

Effective July 1<sup>st</sup>, 2022

Trash \$16.00 per month

Recycling \$8.00 per month

Temporary Fuel Surcharge .10 for every .25 that fuel is over \$3.50

Only items placed in a company-provided container will be picked up. Items placed outside the container, including yard waste, boxes or excess trash will be left behind. Due to these new rates and service levels, Red Oak is making additional containers available for \$6.00 per month.

We understand these changes may be frustrating, but please know that the City of Flowery Branch and Red Oak Sanitation have worked very hard to give our customers the best rates possible during these challenging times.

Thank You,

Lynn Luce – Red Oak Sanitation
